Gifts for girlfriends can be tough calls. Was it easier when you began dating – flowers, chocolates, jewellery? But these standards – like you love life – will become pretty worn pretty quickly if you can't think of more original gifts.

By original we mean funny, romantic, unusual and unexpected; gifts that will take her by surprise because you actually thought to get her something (birthdays aside) but also because what you buy is so out of the blue.

Every girlfriend like to receive a gift and if she knows it's going to be something 'special' then her anticipation, and your stock once she received it, will just get better and better, just like your relationship. Here are ten fantastic gifts that she's guaranteed to love, and that will celebrate and show just how much she means to you

With a gift like this you're getting two for the price of one – that personalised message plus silver or gold speak for themselves.

With personalized Paint by Numbers you send in a photo (of the two of you, or her, but not just you!) and you'll get a paint by numbers template plus all the right colours. No art class included but – even if she doesn't take to the task – you can have a go yourself.
